

# We are EducationMatters

## Enriching opportunities for Calgary's students

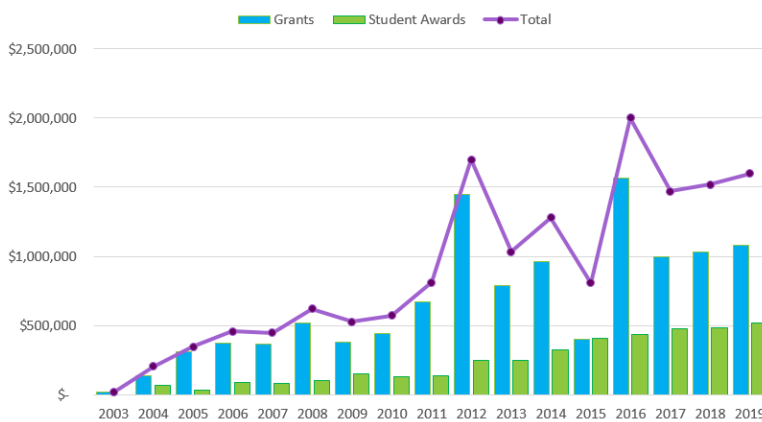

A strong public education system is the cornerstone of a healthy and vibrant community. The best public education happens when the community participates in its development to ensure that disadvantaged students succeed in school and that every student is prepared for adult life.

EducationMatters was established in 2003 by the Calgary Board of Education (CBE) Trustees, and community visionaries, to support innovative

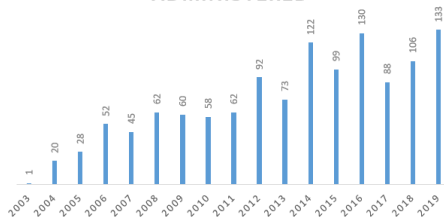

enhancement programs that help CBE students excel. Since then, we are proud to have engaged thousands of Calgarians in support of public education and now manage over 160 active funds.

Each student has unique learning needs. We work to ensure that all students have the resources, technology, healthy living habits, and opportunities they need to get the most from their education and grow into proud members of the Calgary and global community.
